By obtaining a United States Environmental Protection Agency (EPA) Identification (ID) Number, you have notified EPA of your planned hazardous waste activities that are regulated under the Resource Conservation and Recovery Act (RCRA) Subtitle C Regulations. The assigned EPA ID Number was based on the information that was provided on the EPA Form 8700-12, Notification of RCRA Subtitle C Activity, which was received on **04/18/2012**. Your EPA ID number (also referred to as RCRA ID Number) below is specific to the location indicated on the RCRA Site Location, and cannot be used at, or transferred to another location.

EPA (RCRA) ID #: CAT000611228
RCRA Site Name: LOS ANGELES REFINERY MARINE TERMINAL
RCRA Site Location: 885 S PIER A STREET
WILMINGTON, CA 90744

The EPA ID Number is to be used on transport manifests and any other hazardous waste management documentation required under the RCRA Subtitle C Regulations.

EPA has listed your hazardous waste activities status as:

Small Quantity Generator

Your EPA ID Number does not expire. However, if any of the information required in the form changes, (e.g. RCRA Site Name, hazardous waste activity status, contact information, etc.), you may be required to notify EPA by resubmitting a Form 8700-12 (see the instructions accompanying Form 8700-12 at <http://www.epa.gov/osw/inforesources/data/form8700/8700-12.pdf>). If you plan to cease or have ceased operation at the RCRA Site Location, you must notify EPA as well. For this, you could send a letter to EPA requesting to inactivate the EPA ID Number. A letter will be sent to the contact person indicating the change(s) based on the submitted documentation.

Please keep in mind that if you have the hazardous waste activity status of a **"Large Quantity Generator"**, there is a required Biennial Reporting that must be filed with your appropriate state or region. For more information, please visit <http://www.epa.gov/epawaste/inforesources/data/form8700/contact.pdf> to find the contacts for States and EPA Regions. If you have any RCRA Notification (EPA ID Number) questions, please call 415-495-8895. This RCRA Notification service telephone line is operated by EPA Region 9's Contractor, Tetra Tech EM, Inc.

RCRA PERMIT APPLICATION - PART A

Gentlemen:

The Notification of Hazardous Waste Activity form (attached), which was submitted to you in August, 1980 for our Marine Terminal Berth 150, indicated we were generators and treaters/storers/disposers of hazardous waste. We now conclude that we are not treaters, storers, or disposers because the facilities involved are totally enclosed and part of a permitted water treatment system. We are, therefore, only generators of hazardous waste. No waste is stored for more than 90 days and all waste is transported off-site to a registered disposal facility. Therefore, our Marine Terminal Berth 150, CAT00061122B is exempt from Part A permit requirements.

Yours very truly,

E. P. Barnett *by RPH*

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION IX

215 Fremont Street

San Francisco, Ca. 94105

Dear Hazardous Waste Notifier:

for Birth 150 Pier A Street

The Environmental Protection Agency has received your notification of hazardous waste activity. On your notification, you noted that you operated treatment, storage, or disposal facilities. This is a reminder that a permit application must be submitted and a permit obtained for all such facilities.

In some cases, we understand that hazardous waste handlers may have erroneously marked the "Treat/Store/Dispose" box on the notification form. A few words of clarification may be useful. The "Treat/Store/Dispose" category and the permit requirement apply only to those facilities which:

- a. Treat a hazardous waste to alter its characteristics.
- b. Store a hazardous waste for a temporary period.
(In the case of on-site accumulation by a hazardous waste generator, "storage" occurs only when the waste has been held for over 90 days)
- c. Place hazardous waste into or on any land or water where the waste will remain permanently.

Unless your facility conducts one of the activities above, no permit is required under EPA's hazardous waste regulations. If you have marked "Treat/Store/Dispose" in error, please notify us by letter, stating the type of hazardous waste activity which is conducted at your installation.

If your facility does treat, store or dispose of hazardous waste, regulations require you to file a permit application. If you need forms, information or clarification, please call (415) 974-8169.

Note: This is a form letter sent to all installations that returned notification forms indicating that they treated, stored, or disposed of hazardous waste. If you have already submitted a permit application or a letter indicating your reasons for not doing so, please disregard this notice.

Sincerely,

William D. Wilson, Chief
Technical Assessment Section
Toxics & Waste Management Division

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave Items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the **INSTRUCTIONS FOR FILING NOTIFICATION** before completing this form. The information requested herein is required by law (*Section 3010 of the Resource Conservation and Recovery Act*).

Subject: Change of Ownership for Unocal Facilities

Dear Ms. Robles:

Tosco Corporation is in the process of purchasing the west coast refining and marketing business and assets of Union Oil Company of California dba Unocal. This letter is submitted to inform Region 9 of the U.S. Environmental Protection Agency (EPA) of the acquisition and to establish Tosco's EPA Hazardous Waste Generator Identification Numbers for these facilities within Region 9. A list of facilities affected by this acquisition is provided in Table 1 and completed EPA Forms 8700-12 for each site are included in Attachment A.

It is our understanding that submittal of EPA Form 8700-12 initiates the transfer of any RCRA order for the sites listed. As part of the permit transfer, Tosco will submit the necessary permit modifications (e.g., a Class 1 Modifications with the Department of Toxic Substance Control [DTSC] for the outstanding RCRA orders at California facilities). The purchase and sale agreement between Tosco and Unocal delineates the transfer of ownership and the financial responsibilities of each party. As explained in the agreement, Unocal will maintain financial coverage and liability for the facility until Tosco demonstrates compliance with the applicable financial requirements (e.g., the requirements listed Chapter 14 of Title 22).

Please contact me at (510) 228-1220, extension 2975, if you have any questions regarding this submittal or if there will be any delay in processing this change in ownership.

Sincerely,

A handwritten signature in black ink, appearing to read "M.V. Marusich", is written over the typed name.
